

One Stop Shop Resources for all your Program Assessment, Evaluation & Reporting Needs

Jamie Davis, Missy Cummins & Tara Kuipers

Background

Assessment and program evaluation are critical aspects to ensure program effectiveness and efficiency in meeting program goals in all Extension educational programs. Moreover, impact reporting is vital to build and maintain stakeholder and funder relationships. Yet, Extension educators can be easily overwhelmed with the amount of resources available to support their work in program assessment, evaluation and reporting.

To support on-boarding new employees, the Western Regional Program Leadership Committee developed a set of web-based modules. Each module includes a short video of an Extension Educator from the West sharing about a vital competency of Extension Educators. In addition, each module includes an extensive list of resources that have been vetted with extreme care.

Evaluation Resources

The Program Assessment, Program Evaluation and Sharing Impacts modules showcase resources from the Western Evaluation Capacity Training. Including the recorded webinars presented by:

Program Planning and Logic Modeling	Ellen Taylor-Powell, Ph.D.
Comprehensive Approaches to Evaluation	Mary Arnold, Ph.D..
Program Evaluation Utilization	Michael Quinn Patton

The Extension Educators sharing about this competency were members of the 18-month-long Western Evaluation Capacity Training, which focused on improving the capacity among Extension professionals for program evaluation to communicate with decision makers and clientele.

Modules

Below is a comprehensive list of all of the modules developed by the Western Regional Program Leadership Committee. Modules can be accessed for free at extension.wsu.edu/wrpl/

- Accountability
- Program Assessment
- Program Evaluation
- Sharing Impacts
- Adult Education
- Engaged Scholarship
- History of Extension
