# Sonny Ramaswamy

"Nearly 60 million Americans live in rural areas, and their value and impact through the agriculture industry can be felt both domestically and internationally. To help these communities remain prosperous and viable, we need to support discovery of new ways that promote economic viability among producers, small businesses, and communities in rural America."

*USDA Announces \$14 Million in Grants Supporting Economic Growth for Rural Communities, February 25, 2015*

# Priorities and Alignment

- Efforts support NIFA, REE, and USDA goals
  - [USDA Strategic Plan for FY 2014-2018](#)
    - Goal 1: Assist Rural Communities to Create Prosperity so They Are Self-Sustaining, Repopulating, and Economically Thriving
  - *REE Action Plan for FY 2012*
    - Goal 7- Rural-Urban Interdependence and Prosperity
      - Strategy 2: Support information and technology transfer and translational research, “transformational extension,” to inform citizens and enable and support vibrant and resilient communities;
      - Strategy 4: Build new partnerships with underserved and non-traditional populations.
  - *NIFA Strategic Plan for FY 2012-2017*
    - Goal 7- Ensure the development of Human Capital, Communities, and a diverse Workforce through research, education, extension and outreach programs in food and agricultural sciences to support a sustainable agriculture system.

# Program Outcomes

- NIFA's Community & Rural Development program:
  - Promotes excellence in research, academics and outreach that fosters rural vitality and sustainability, utilizing the
- Regional Rural Development Centers as a primary vehicle to organize multi-disciplinary teams that:
  - Enhance workforce development and employability;
  - Invigorate economic and community development; and
  - Promote rural health and safety.

and Agriculture

# Community & Rural Development (CRD) Grant Programs

- Small Business Innovation Research – Rural Development (SBIR-RD) objectives:
  - stimulate technological innovations in the private sector;
  - strengthen the role of small businesses in meeting Federal research and development needs;
  - increase private sector commercialization of innovations derived from USDA-supported research and development efforts; and
  - foster and encourage participation by women-owned and socially and economically disadvantaged small business firms in technological innovations.
